MORE INFORMATION

Online shopping is very easy but there are a few important things to note.

- We value our customers' privacy and go to great lengths to ensure that all payments on the Target website are safe and secure.
- If you can't find what you want via the search bar then try a few different words or try looking through the department menus.
- While most of our range is available on the website and we are adding more every day, please be aware that you may not be able to find everything on our website.
- Due to lower stock levels, some products may be listed online but are not available for home delivery (only Click & Collect at selected stores). This will be noted on the product pages.
- Some big, bulky products may not be available for home delivery or may incur added delivery fees.
- All items purchased from Target Online can easily be returned via the post or to your local Target store within 60 days of delivery.
- Buying a gift for someone? To send it directly to their home, go through the normal process until you get to the payment page. You can then click Add New Address. Note that they will get a copy of the invoice in the box.
